PERSONAL PROFILE AND SUMMARY

Computer Science and Mathematics undergraduate at Helwan University with a strong focus on Cybersecurity, aiming for roles in Information Security Analysis and SOC Analysis.

Completed several technical internships, including Full Stack Python development at ITI, and hands-on Networking and Cisco Packet Tracer training at Tuya Technology Company – Ministry of Military Production, where the Cisco Introduction to Cybersecurity certification was also obtained.

TECHNICAL SKILLS AND SOFT SKILLS

Programming Languages: Python, HTML, CSS, C++, Java Script

Deep Learning Frameworks: Django

Network Fundamentals:

Cybersecurity Fundamentals:

Cisco Packet Tracer:

Networking Protocols (TCP/IP, DNS, DHCP):

Security Concepts (CIA Triad, Threat Modeling, Access Control):

Web Development (HTML, CSS, JS, Flask/Django basics):

Soft Skills: A fast and detail-oriented learner with strong multitasking abilities, effective teamwork skills, and the capacity to perform under high pressure. Passionate about securing systems and continuously expanding technical knowledge to stay ahead of emerging security threats and technologies.

Languages: Arabic, English

PROJECTS

Data Analysis Using AI

Data analysis of a Car DataSet From Kaggle

Feb 2024 – May 2024

Python, Power Bi, Jupyter

- Practical practice of Python language usage and improvement it
- Utilized Kaggle site to extract DataSet to analyze it and make future insights to practice on data analysis
- How to achieve future insights by Analyzing the data

Web Application (ITI Final Project)

Chat Web App Using Python

Aug 2025 – Sep 2025

Python, HTML, Java Script, CSS, Postgre SQL

- Developed a fully functional Chat Web App using Python and web technologies. Implemented backend logic, user message handling, and basic interface components. Focused on clean code structure, functionality, and smooth real-time communication workflow.

INTERNSHIPS & PRACTICAL EXPERIENCE

AI Career Essentials intern

Jun 2024 – Aug 2024
Cairo, Egypt

- Focus on a program designed to empower individuals to leverage AI for career acceleration
- Learn how to be efficient by mastering essential AI tools for all fields of work

Central Agency for Public Mobilization and Statistics (CAPMAS)

Jun 2025 – Jul 2025
Cairo, Egypt

- Practical exposure to large-scale IT & data infrastructures
- Understanding of governmental systems & data workflows

Network & Cyber Security at Tuya Company – Ministry of Military Production

Jul 2025 – Aug 2025
Cairo, Egypt

- Hands-on training using Cisco Packet Tracer
- Practical networking fundamentals simulation labs
- Earned certification from Cisco Networking Academy – Introduction to Cybersecurity

Information Technology Institute (ITI) Full Stack Using Python (Online)

Aug 2025 – Sep 2025
Cairo, Egypt

- Worked on a final Web Application project
- Developed using Python & basic web tech stack

EDUCATION

Helwan University, Faculty Of Science

Computer Science , Mathematics (Undergraduate)

Cairo, Egypt
Oct 2022 – Present
